

2020 Membership Report – Adrian Miflin

Thanks to all the members that have renewed their membership this year and welcome to all the new members that have joined for the first time.

Members are reminded that their current membership expiry date is shown on their PDF membership card that was attached to the membership welcome email. All members with renewal dates before March 2021 will be offered 18 months membership for the price of 12, so on renewal 18 months will be added to their current expiry date. Members will be sent an email with renewal instructions when their renewal is due.

Members can check and update their contact details at any time by accessing their British Cycling dashboard @ https://www.britishcycling.org.uk/dashboard#my_account your username is your membership number. Note that these details are shared with your BC membership if you have one.

Due to the restrictions on club activities this year we have not had the usual number of new members joining so membership numbers have reduced from 488 members in Oct 2019 to 430 in Oct 2020. I have included some charts below to shown a breakdown of the current membership.
